## PROFILE

Inventive and industrious computer science student with practical business and artistic experiences. Interested in multi-disciplinary problem solving involving Computer Science, Information Systems, Business, and Digital Media.

## EDUCATION

### Master of Science in Computer Science | Human-Computer Interaction

Georgia Institute of Technology | GPA 3.5 | December, 2021

Related Courses: Human-Computer Interaction, Introduction to Enterprise Computing, User Interface Software, Information Security Policy

### Master of Business Administration | Management Information Systems

Wilmington University | GPA 3.67 | May, 2019

Related Courses: Data Management, Global Marketing, Business Strategy, Introduction to Data Analytics, Analysis, Modeling and Design

### Bachelor of Science | Business Management

Wilmington University | GPA 3.92 | *magna cum laude* | May, 2018

Related Courses: Project Management, Operations and Systems Management, Organizational Development, Legal and Ethical Environment of Business

## EXPERIENCE

### OneTrust

Professional Services Intern | Atlanta, GA | May, 2020 - August, 2020

I will be assisting the Professional Services and Sales team with demo preparation, custom questionnaires and forms, data cleaning, and proof of concept support.

### Wooley Media, LLC

Founder and Art Director | Newark, DE | 2016 - Present

Launched a multimedia production company that specializes in digital media and branding services. Including photoshoots, videography, and print advertisements.

## PROJECTS

### Google Chrome Extension Targeting SVG Properties

Developer and UI Designer | HTML/CSS, and JavaScript | November, 2019

Chromatic helps remove web navigation hurdles for color blind users. This resizable SVG targeting filter allows users to adjust the site's HSV and R: G: B values.

### Sci-Fi UI Mobile App Prototypes (Personal Project)

UI/UX Designer | Adobe XD, Illustrator, AfterEffects | April - August, 2020

Conducting character need based analysis and creating mobile app prototype solutions to assist characters. The designs are cohesive with the film's UI aesthetic.
